EDUCATION
State University of California
Bachelor of Science in Computer Science | Sep 2020 - May 2024
GPA: 3.8 / 4.0

TECHNICAL SKILLS
Languages: Python, TypeScript, JavaScript, SQL, C++, HTML, CSS
Frameworks & Libraries: React, FastAPI, Node.js, Express, Next.js
Tools & Platforms: Docker, AWS, Git, GitHub, PostgreSQL, Redis, Linux

WORK EXPERIENCE
Software Engineering Intern | Acme Cloud Solutions | Jun 2023 - Aug 2023
- Developed REST API endpoints using FastAPI and PostgreSQL, serving 50k daily active users.
- Containerized microservices using Docker and automated CI/CD deployment pipelines.
- Improved query response times by 35% through indexing and caching with Redis.

KEY PROJECTS
Readiness Copilot | https://github.com/alexrivera/readiness-copilot | https://readiness.dev
- Built full-stack placement readiness platform with Python, FastAPI, and React, serving 500 active students.
- Tech Stack: Python, FastAPI, React, PostgreSQL, Docker
- Designed structured JSON review workflows and automated resume benchmark checks.

Distributed Task Queue | https://github.com/alexrivera/task-queue | https://taskqueue.io
- Implemented high-throughput asynchronous task worker in Python, processing 150k messages per second.
- Tech Stack: Python, Redis, Docker, RabbitMQ

ACHIEVEMENTS
- 1st Place Winner at HackCal 2023 out of 120 teams.
- AWS Certified Cloud Practitioner (Sep 2023).
- President of University Open Source & Competitive Programming Club.
